

Overview

Members' claims data

Starting this module

This module sets out the information you need to provide to help us consider whether the nature and level of claims made against your members aligns with your proposed limit of liability.

We need this information from both first-time applicants and those applying for a scheme remake.

We ask for this information in line with the requirements of professional standards legislation. For example, in the Professional Standards Act 1994 (NSW), section 10 requires that we assess this.

Understanding how we use your claims data

We use the data you provide in this module to assess your proposed scheme limit of occupational liability.

Your members' claims history will also allow us to consider the extent to which the scheme can improve consumer protection and professional standards.

Completing the questions

Enter the required information about your association into the Members' claims data [template](#).

Use the Members' claims data [guidance](#) to help you.
