THE PROFESSIONAL STANDARDS COUNCILS' MAJOR ACHIEVEMENTS 2008-2009

- The Engineers Australia *Cover of Excellence*® Scheme commenced on 1 June 2009 in Tasmania. This complements the commencement of Schemes in all mainland States and Territories in the 2007-08 year.
- There are now over 38,000 professionals participating in *Cover of Excellence*® Schemes.
- The Professional Standards Councils worked in co-operation with the Commonwealth Treasury regarding the prescription of *Cover of Excellence*® Schemes under the *Trade Practices Act 1974* (Cth).
- Of the 27 *Cover of Excellence*® Schemes nationwide, 24 have been prescribed by the Commonwealth Treasury, including the following 18 Schemes prescribed this year under the *Trade Practices Act 1974* (Cth) until June 2011:
 - » The Victorian Bar Incorporated (VIC Bar),
 - » The Professional Surveyors Occupational Association's (PSOA),
 - » The Engineers Australia in the Australian Capital Territory, New South Wales, the Northern Territory, Queensland and Western Australia
 - » The ICAA in the Australian Capital Territory, Queensland, the Northern Territory, South Australia and Victoria
 - » CPA Australia in the Australian Capital Territory, Queensland, the Northern Territory, South Australia, Victoria and Western Australia.
- The Professional Standards Councils continued to raise their profile and promote the self-regulation of professionals, with stakeholder information events in Sydney, Hobart and Perth.
- The Councils and all State and Territory justice departments agreed to renew the service level agreements between the Councils, the departments and the NSW Attorney General's Department for the 2008-09 financial year. These agreements ensure effective secretariat support will be provided to all Councils by the Office of the Professional Standards Councils (OPSC), located within the NSW Attorney General's Department.
- The Councils continued to monitor the implementation of risk management strategies of all occupational associations that enjoy the benefit of a *Cover of Excellence*® Scheme. Significant improvements have been made in presenting associations' annual risk management reports as part of the multi-jurisdictional annual statutory reporting of the Councils.

THE ROLE OF THE PROFESSIONAL STANDARDS COUNCILS

OUR VISION:

PROFESSIONAL EXCELLENCE – CONSUMER PROTECTION

OUR MISSION:

The Professional Standards Councils' mission is to promote consumer protection and excellence in professional standards by encouraging the self-regulation of occupational groups through the implementation of *Cover of Excellence*[®] Schemes.

Cover of Excellence[®] Schemes operate for participating members of occupational associations, and:

- recognise those who implement robust risk management strategies such as complaints and discipline systems, codes of ethics, and continuing occupational education,
- limit occupational liability for members of occupational associations who carry professional indemnity insurance and/or business assets to the limitation of liability amount, and
- entitle members of the occupational association to enjoy the reputation of the *Cover of Excellence*[®] badge.

History and profile of the Professional Standards Councils

The New South Wales Attorney General established the Professional Standards Council of New South Wales in 1995 under section 39 of the *Professional Standards Act 1994* (NSW). It was created to help professional and other occupational associations improve the regulation of their members so that consumers of their services are better protected.

Similar Councils were created subsequently in other Australian jurisdictions. The Professional Standards Council of Western Australia was established in 1997 under section 8 of the *Professional Standards Act 1997* (WA).

Professional standards legislation was passed in the remaining jurisdictions after 2003. In

2005, the Professional Standards Council of Victoria was established under section 42 of the *Professional Standards Act 2003* (Vic). In 2006, the Professional Standards Council of Tasmania was established under section 43 of the *Professional Standards Act 2005* (Tas), the Professional Standards Council of the Northern Territory under section 41 of the *Professional Standards Act 2005* (NT) and the Professional Standards Council of South Australia under section 42 of the *Professional Standards Act 2004* (SA). The Professional Standards Council of the Australian Capital Territory was formed in 2007 under section 4.36 of the *Civil Law (Wrongs) Act 2002* (ACT) and finally, to complete arrangements in all States and Territories, the Professional Standards Council of Queensland was established under section 41 of the *Professional Standards Act 2004* (Qld).

The Attorneys General of each of the States and Territories, through the Standing Committee of Attorneys General (SCAG), the Commonwealth Minister for Revenue and the Commonwealth Assistant Treasurer signed the *Professional Standards Agreement 2005* in October 2005. Under this agreement, all States and Territories have agreed to appoint the same members to each of the eight Professional Standards Councils. There are 11 members in total. New South Wales and Victoria have nominated two members each; the other States and Territories and the Commonwealth have nominated one member each.

The Professional Standards Councils approve and monitor *Cover of Excellence*[®] Schemes, which aim to improve professional standards, protect consumers and limit the civil liability of professional and other occupational groups in certain circumstances.

Under the supervision of the Councils, the OPSC monitors occupational associations in the preparation of Scheme applications, administers the annual risk management reporting of occupational associations and, on occasion, conducts research and forums to facilitate the improvement of professional standards of associations.

It is the continued intention of all jurisdictions that the Councils will be self-funding, with revenue to be derived from application and annual fees. The Councils have been self-funding for the last two financial years. Seed funding, which was available to those jurisdictions that did not generate sufficient income to cover operational expenses, ceased to be available at the end of 2008-09. Seed funds, provided by Tasmania and the Northern Territory justice departments, were returned to these departments during the 2008-09 financial year.

Cover of Excellence[®] Schemes

The Professional Standards Councils are responsible for approving and monitoring associations' *Cover of Excellence*[®] Schemes. Schemes limit the civil liability of members of associations that have the benefit of an insurance policy and/or business assets to the level of the limitation of liability. Participating

associations are also required to meet a range of criteria, including implementing and monitoring codes of ethics, codes of conduct, and complaints and disciplinary mechanisms. In addition, each association has a standard of insurance with which its members must comply. Annual risk management reporting is also required of associations with *Cover of Excellence*[®] Schemes.

Approving Cover of Excellence[®] Schemes

Before approving a *Cover of Excellence*[®] Scheme, Councils must consider:

- the position of consumers who may be affected by limiting the occupational liability of members of the association,
- the nature and level of claims relating to occupational liability made against members of the association seeking a *Cover of Excellence*[®] Scheme,
- the association's standards of insurance,
- the cost and availability of insurance,
- the association's risk management strategies and how those strategies are intended to be implemented, and
- public comments and submissions made in response to the public notification of a proposed *Cover of Excellence*[®] Scheme.

Determining limits of liability

The Professional Standards Councils are responsible for determining the limitation of liability under *Cover of Excellence*[®] Schemes. When doing so, the Councils must consider the nature and level of claims made against members of the association and the need to adequately protect consumers, that is, the risk that consumers may have to bear as a result of a certain level of capped liability being approved.

Monitoring associations' risk management strategies

Associations must demonstrate that they have the capacity to implement risk management strategies and to administer their *Cover of Excellence*[®] Schemes for the benefit of consumer protection. Participating

associations must report annually to the Councils about the mechanisms used to implement their risk management strategies as well as the effectiveness of such strategies in improving the professional standards of individual practitioners.

Improving professional standards

The Professional Standards Councils work together with associations to develop self-regulation mechanisms in order to improve their professional standards. The Councils conduct research, develop policies and guidelines, and organise events to promote debate and change, in the areas of professional standards, codes of ethics and conduct, and risk management, in order to improve the standard of services received by consumers.

Protecting consumers

The Councils' goals are to continue to strengthen and extend professionalism of individuals within occupational associations, promote self-regulation across occupational groups, and protect consumers by demanding high levels of professional standards and practices of those occupational associations seeking to gain limited liability, as well as by expanding the number of *Cover of Excellence*[®] Schemes in operation. Once a particular *Cover of Excellence*[®] Scheme is approved, the Councils allow members of the association to use the *Cover of Excellence*[®] logo as a mark of the quality standards and practices that consumers can expect to receive. Each *Cover of Excellence*[®] Scheme has a maximum duration of 5 years, after which time a new application must be submitted for a new Scheme. The limited duration of a *Cover of Excellence*[®] Scheme helps ensure robust mechanisms are in place to protect consumers and meet evolving higher standards of professionalism.

Co-operation with the Commonwealth

The *Treasury Legislation Amendment (Professional Standards) Act 2004* (Cth) permits the Commonwealth to prescribe *Cover of Excellence*[®] Schemes so as to limit the liabilities of occupational associations under the *Trade Practices Act 1974* (Cth), the *Corporations Act 2001* (Cth) and the *Australian Securities and Investments Commission Act 2001* (Cth).

The New South Wales Bar Association (NSW Bar) *Cover of Excellence*[®] Scheme was the first Scheme to be prescribed under the *Australian Securities and Investments Commission Act 2001* (Cth), the *Corporations Act 2001* (Cth) and the *Treasury Legislation Amendment (Professional Standards) Act 2004* (Cth) in May 2006.

The Engineers Australia (EA) New South Wales *Cover of Excellence*[®] Scheme was prescribed in April 2007, followed by the Australian Valuers Institute (AVI) New South Wales Scheme effective from 5 October 2007, and the ICAA New South Wales and the CPA Australia New South Wales *Cover of Excellence*[®] Schemes, effective from 25 October 2007. All of the above Schemes were prescribed for a period of 5 years. A further 13 Schemes were prescribed for a period of twelve months during the 2007–08 financial year.

In the 2008–09 financial year prescription was renewed for 18 *Cover of Excellence*[®] Schemes by the Commonwealth under the *Treasury Legislation Amendment (Professional Standards) Act 2004* (Cth), until June 2011. Four Engineers Australia *Cover of Excellence*[®] Schemes were prescribed for the first time.

Dear Ministers,

The Professional Standards Councils had a very successful year in 2008-2009. Not only have the Councils carried out their mandate under each piece of professional standards legislation for the creation of professional standards Schemes, the Councils have also monitored Schemes in all States and Territories in Australia, with the first Scheme gazetted in Tasmania for Engineers Australia.

The Professional Standards Councils have worked in conjunction with the Commonwealth, which prescribed 18 *Cover of Excellence*[®] Schemes to June 2011. Of the *Cover of Excellence*[®] Schemes prescribed, four Engineers Australia schemes were prescribed for the first time. This demonstrates the marked increase in demand for *Cover of Excellence*[®] Schemes and continued Commonwealth support for professional standards legislation.

The Commonwealth has also provided additional information regarding a review of professional standards legislation. The review is expected to commence in 2010. The Councils have developed a framework to research and document the impacts of professional standards legislation that will facilitate this review.

The Professional Standards Councils were saddened by the retirement of Warwick Wilkinson, the inaugural Chair of the Professional Standards Council of New South Wales and member of the Professional Standards Councils (1995-2008).

His contribution since the inception of Professional Standards Council in New South Wales, in 1995, has been instrumental in the evolution of the Professional Standards Councils' framework, and reflects his ongoing commitment to improving professional standards and protecting consumers.

The Professional Standards Councils were much assisted by the hard and diligent work of the secretariat under the leadership of Ms Philippa Seagrave, who remains as acting Executive Officer. Ms Seagrave and her team have made an outstanding contribution, particularly in complying with the complex financial and audit requirements in various States and Territories of the Councils. Ms Seagrave will continue to lead the secretariat while Dr Kate Sainsbury remains on extended leave.

I am pleased to submit the attached Councils' Annual Report to you, which contains full details of the above.

Yours faithfully,

Brian Rayment QC

OFFICE OF THE PROFESSIONAL STANDARDS COUNCILS REPORT

OPSC staff at heritage listed Brislington House located in the Parramatta Justice Precinct. Back (L to R): Philippa Seagrave, Robert Lawson
Front (L to R): Hau Wong, Naomi Degabriele, Elizabeth Rysiok, Nicole Maxwell. Absent: Mary McCrudden and Mary Abi-Younes.

The focus of the Office of the Professional Standards Councils (OPSC) during 2008-09 has been on processing Scheme applications for new and existing clients.

The OPSC also finalised the development and implementation of new *Application Guidelines* to assist associations to meet Councils' application requirements in a multi-jurisdictional environment.

The OPSC has undertaken significant work in building stakeholder relationships through increased face-to-face meetings. Council meetings and forums were arranged in New South Wales, Tasmania and Western Australia, to meet existing and prospective stakeholders.

Structure and staffing within the OPSC

The OPSC now has six full time officers and one part-time (0.4) officer.

The OPSC continued to participate in the NSW Attorney General's Department Graduate Program in its final year, under which it gained the services of Ms Elizabeth Rysiok.

The Executive Officer remains on leave, with acting arrangements extended for up to another 24 months.

Two new Legal/Policy Officer positions were filled in the first half of the 2008-09 financial year. The Marketing/Communications Officer position remains vacant.

Additionally, a number of positions have been identified as necessary to support the statutory functions of the Professional Standards Councils: a Senior Legal Policy Advisor, a Financial Specialist, and a Research Officer. A recruitment 'freeze', effective from June 2009 across the NSW public sector,

may continue to delay necessary recruitment action.

Co-operation with the Professional Standards Legislation Working Group (PSLWG)

PSLWG has met to discuss the extension of the service agreements between the Councils, the justice departments in each jurisdiction and the NSW Attorney General's Department. These agreements expired on 30 June 2009. All parties have agreed to extend them to 30 June 2010, at which point new agreements will be signed. The agreements allow for the management of inter-jurisdictional financial and administrative arrangements.

This continuing co-operation has also led to amendments to professional standards legislation across all States and Territories such that:

- Costs-inclusive insurance policies can be used to limit the liability of professionals,
- Mutual recognition of *Cover of Excellence*[®] Schemes is established across jurisdictions, and
- A fee structure can be implemented to ensure that the Professional Standards Councils are funded in the most appropriate manner across jurisdictions and associations.

Policy development

The OPSC conducted research and worked with clients to assist the Councils to review and develop a number of their policies to better achieve the aims of professional standards legislation and to meet their clients' needs more effectively.

A new *Policy Statement on Complaints, Compliments and Queries* was developed by the OPSC and endorsed by the Councils in February 2009. The policy prescribes mechanisms for dealing with feedback received by the OPSC, or by any of the Councils or their members. The *Policy Statement on Complaints, Compliments and Queries* is an essential element of the Councils' ongoing commitment to quality and risk management, and protection of consumers.

The Councils' *Application Guidelines* have been significantly revised to take into account State/Territory-specific requirements. The *Application Guidelines* can be found on the Professional Standards Councils' website.

The Councils also endorsed a *Framework for the Assessment of the Impact of Professional Standards Legislation* in December 2008. The purpose of this project is to provide a means to conceptualise and then measure the achievement of the objects of professional standards legislation, in particular, that the Councils and the Schemes they administer are able to:

- facilitate the improvement of occupational standards of professionals and others, and
- protect consumers of the services provided by professionals and others.

In February 2009 the Councils endorsed the development of a stakeholder survey as an initial step in seeking measurable benchmarks for the impact of professional standards legislation.

In May 2009 the Councils endorsed an initial data gathering strategy, based on analysing information already collected by the Councils in the course of receiving, considering and approving Schemes.

The recruitment of a Research Officer to the OPSC is critical to the continuation of this project. Councils have established this recruitment activity as a high priority for early in 2009-10.

A review of the annual reporting requirements for associations will be completed early in the 2009-2010 financial year. The focus of the review is on compliance with best practice risk

management systems, the ability to collect information over the life of a Scheme, and streamlined reporting for associations with Schemes in multiple States.

A consultancy on fees modelling was completed in June 2009, the recommendations of which will be used to inform the development of the Councils' policy on the levying of annual fees for associations.

Plans for 2009-10

Key initiatives for the OPSC during the year ahead include:

- Mapping the *Cover of Excellence*[®] Scheme application process in order to identify priority areas for improvement,
- Completing the review of associations' annual reporting guidelines,
- Developing and implementing guidelines on insurance claims data,
- Conducting a baseline survey of stakeholders as part of the *Framework for the Assessment of the Impact of Professional Standards Legislation*,
- Conducting a research project that provides baseline measurements for the assessment of the impact of professional standards legislation,
- Forums and information sessions to be held in at least two States to meet existing and prospective stakeholders,
- Implementation of an integrated Customer Relationship Management database to facilitate positive and timely interactions with stakeholders,
- Implementation of the Marketing Strategy and the Website Strategy which were endorsed by the Councils in 2006-07,
- Identifying and working with associations and professions who do not have Schemes and/or professional standards, and
- Office accommodation refit to meet resource and recruitment needs.

Acting Executive Officer

THE PROFESSIONAL STANDARDS COUNCILS

Brian Rayment

Esther Alter

APPOINTMENTS TO THE COUNCILS

The Attorneys General of each State and Territory appoint members to the Professional Standards Councils who have the skills, qualifications, experience and ability to contribute to the work of the Councils. The current Council members provide a solid base of experience in the fields of law, insurance, consumer affairs, corporate governance, auditing and architecture.

All States and Territories have agreed to appoint the same members to each Council. The *Professional Standards Agreement 2005* allows each State and Territory (other than New South Wales and Victoria) and the Commonwealth to nominate one member. New South Wales and Victoria are entitled to nominate two members each to the Councils. The *Professional Standards Agreement 2005* also entitles New South Wales and Victoria to nominate the Chairman and Deputy Chairman on an alternating basis.

Mr Warwick Wilkinson, the Commonwealth representative and founding Chairman of the Professional Standards Council of NSW, retired from all Professional Standards Councils on 31 December 2008. Mr Wilkinson was appointed Chairman of the Professional Standards Council of New South Wales from 1 March 1995 to February 2005 and was then appointed to all Councils as they became operational in each State and Territory.

A new Commonwealth representative has been nominated, and State/Territory-specific processes are being followed to ensure appointment to all Councils as set out under the *Professional Standards*

Agreement 2005. The Commonwealth nominated representative's appointment has been confirmed for the Professional Standards Councils of the Northern Territory and Queensland, with appointment to all other States and Territories expected to be confirmed in the 2009-2010 financial year.

PROFESSIONAL STANDARDS COUNCILS' OPERATIONS

RESEARCH AND DEVELOPMENT

Long Term Impacts of Professional Standards Legislation

As part of the Councils' own risk management processes, the Councils have identified the need to document and describe the impact of professional standards legislation in a complex and changing economic, insurance and legislative framework. This year, the Councils endorsed a *Framework for the Assessment of the Impact of Professional Standards Legislation* to underpin a long-term in-depth research project. The assessment of the impact of professional standards legislation is an ongoing project, which will evolve as information is collected and collated. A benchmark survey of stakeholders will be undertaken in 2009-10. Recruitment of a Research Officer has been identified as critical for the success of this project.

Guidelines for Associations' Annual Reporting

The Professional Standards Councils are concluding a major review of associations' annual reporting requirements, incorporating risk management reporting. The revised reporting guidelines will ensure compliance with Risk Management Standard AS/NZS 4360:2004, and facilitate the creation of time-series data to compare against the associations' initial 5-year risk management plans. Revised risk reporting guidelines will be incorporated into the Councils' publication, *A Framework for Compliance under Professional Standards Legislation*.

As part of this review there have been significant changes to the way in which the Councils report associations' risk management activities, as described in the "Schemes in Focus" section of this Annual Report. The changes reflect the multi-jurisdictional nature of a number of the *Cover of Excellence*[®] Schemes and a focus on life-of-scheme risk management.

Star Initiative Grants Program: Providing associations with assistance

Historically, the Professional Standards Councils offered grants to association members, who enjoy the benefit of a Scheme, to undertake activities and research that contribute to the improvement of professional standards and consumer protection. The grants were awarded on a merits basis for risk management strategies, research, seminars or other initiatives that support the principles of professional standards legislation.

Star Initiative Grants were not offered in 2008-09. The Councils will re-evaluate the objectives of the Star Initiative Grants program once funding parameters have been resolved. It is anticipated that a Star Initiative Grants program could recommence in 2011.

EXCHANGING KNOWLEDGE

The Professional Standards Councils' website www.psc.gov.au

Information about the Professional Standards Councils is disseminated through its website, which publishes all current *Cover of Excellence*® Schemes. The website also contains information about the Councils' policies, as well as links to current and historical copies of publications, including Annual Reports and consultative papers.

The current Website Strategy, which was developed in 2006-07, has been partially implemented during 2007-08 and 2008-09. A more succinct website address (www.psc.gov.au) has recently replaced www.professionalstandardscouncil.gov.au and active promotion of the new address will occur in 2009-2010. The existing domain name will continue to operate until it expires in 2010.

Meeting with stakeholders

The OPSC meets regularly with the Councils' stakeholder associations, both those who have Schemes in place, and also those who may benefit from the development of a Scheme for their association in the future.

Three information seminars about the work of the Professional Standards Councils and *Cover of Excellence*® Schemes were held in 2008-09 in Sydney, Hobart and Perth.

CORPORATE GOVERNANCE

Terms of office and remuneration

The Professional Standards Councils' members are appointed for a term of up to three years, and are eligible for re-appointment at the expiration of their term.

In 2008-09 Mr Justin Harper, who was nominated by the Queensland Attorney-General, resigned from the Councils.

Mr Warwick Wilkinson retired from all Councils in December 2008.

Farewell Mr Warwick Wilkinson (L to R): Warwick Wilkinson, Philippa Seagrave, Brian Rayment

Ms Lisa Hunt was nominated as the Commonwealth representative in May 2009 and her appointment is being processed in all States and Territories according to local policies and the *Professional Standards Agreement 2005*. Her appointment to all Professional Standards Councils is expected to be completed in the latter part of 2009.

All remaining State and Territory Council members whose term of office expired on 30 June 2008 have accepted nominations for a further three-year term.

An allowance/sitting fee for Council members is paid for attendance at Council, advisory group and committee meetings. This sitting fee is based on the NSW Premier's Department *Guidelines for NSW Board and Committee Members*.

The remuneration of Council members consists of the following:

Table 1 Remuneration of Council Members

Council member	Meetings up to 4 hours	Each hour thereafter
Chairman	\$593.00	\$125.00
Members	\$361.00	\$75.00

The Chairman is also paid a retainer of \$2,575.00 per annum for out-of-session work and Council related expenses.

The average sitting time of Council meetings during the period was approximately 3.25 hours.

Procedures

Provisions in professional standards legislation in each jurisdiction guide procedures for Council meetings.

Policies developed since the Councils were established to provide additional guidance for the operation of meetings. Policies include: Roles of Visitors, Declaration of Conflicts of Interest (declared at each meeting), and procedural arrangements to ensure dissemination of information in sufficient time for consideration of the meeting material.

Meetings of the Councils

The number of meetings held and attendance information can be found under the jurisdiction-specific pages in this Report.

Committees

The Professional Standards Councils can establish committees to assist the Councils in their work. During the 2008-09 financial year, the Audit and Risk Management Committees (ARMCs) continued to meet in order to discuss operations and risk management issues facing the Professional Standards Councils. Specifically, the ARMCs consider the Professional Standards Councils' financial position, budget management, risk management strategies, internal controls, and business plans.

Like the Professional Standards Councils, the ARMCs have common membership across all States and Territories. The members of the ARMCs during the 2008-09 financial year were:

- Steven Cole (Chairman)
- Esther Alter
- Ronald Farrell, and
- Iain Summers.

The Executive Officer of the OPSC attends these meetings as a visitor.

Appointment to the ARMCs is on an annual basis. Members may be re-appointed. It is anticipated that the current members will have their appointments renewed.

Risk Management Program

The Professional Standards Councils have implemented an Internal Risk Management Program (IRMP), based on the Risk Management Standard AS/NZS 4360:2004. The current IRMP expired on 30 June 2009. The IRMP assists the Professional Standards

Audit and Risk Management Committee

Councils to identify and resolve diverse risks, such as commercial and legal risks, corporate knowledge management, and financial administration and audit arrangements. The Councils, the ARMCs and the OPSC have developed the IRMP for 2009-2011, which will be finalised in September 2009.

FINANCIAL PERFORMANCE OF THE COUNCILS

All Professional Standards Councils operated with the assistance of the OPSC, provided by the NSW Attorney General's Department. The financial performance report of each Council can be found in the Financial and Statutory Reports section, which identifies the revenue received by each Council and its proportion of the expenditure. If audited financial information is available this is identified and included in this section as an addendum.

CO-OPERATION BETWEEN JURISDICTIONS

CO-OPERATION AMONG PROFESSIONAL STANDARDS COUNCILS

Inter-governmental agreement

The *Professional Standards Agreement 2005* was endorsed and executed by the Standing Committee of Attorneys General (SCAG). The Agreement allows common membership of all State and Territory Professional Standards Councils, and the use by each Council of common secretariat support, provided by the NSW Attorney General's Department. During 2008-09, there was continued support for the *Professional Standards Agreement 2005*.

Inter-departmental service agreements

During the 2007-08 financial year, all States and Territories became signatories to service agreements with the Councils and the NSW Attorney General's Department. These agreements enable co-operation between the State and Territories by ensuring that the expenditure incurred pertaining to the operation of the OPSC and the Councils is allocated and borne by the jurisdictions in an equitable manner. The agreements expired on 30 June 2009. However, there are provisions for extension of the agreements and all parties have agreed to extend them until 30 June 2010, at which time new agreements will be implemented.

LEGISLATIVE CHANGE

The Professional Standards Councils are responsible for giving advice to the Attorneys General, and Minister for Corrections and Consumer Protection in Tasmania, on the operation of professional standards legislation. The Councils have taken an active role in this regard during 2008-09. Key areas that the Councils have considered are costs-inclusive insurance policies, mutual recognition of interstate *Cover of Excellence*[®] Schemes and the consistency of Schemes across jurisdictions.

Costs-inclusive insurance amendment

In 2004-05, the Attorneys General were informed by the Councils of advice they had received that professional standards legislation may not allow a person to whom a Scheme applies to rely on a costs-inclusive policy. Many professionals who had the benefit of a Scheme typically held the more readily available costs-inclusive cover.

An amendment was requested to clarify that both costs-inclusive and costs-in-addition insurance policies could be used for the purposes of limiting liability under professional standards legislation. Amendments to the legislation were adopted in Victoria on 11 October 2006, in New South Wales on 27 October 2006, in Tasmania on 18 December 2006, in South Australia on 18 January 2007, in the Northern Territory on 4 April 2007, and in the Australian Capital Territory on 6 May 2008. Amendments to Western Australia legislation remain outstanding.

L to R: Brian Rayment (Chairman)
Steven Cole (Deputy Chairman)

Mutual recognition of Schemes

The Councils identified the need for an amendment to professional standards legislation to allow mutual recognition of Schemes across jurisdictions. Such an amendment would acknowledge that professionals may work across borders and enable the legislation to operate efficiently at a national level. Amendments commenced in New South Wales on 15 June 2007, in the Northern Territory on 1 April 2008, in the Australian Capital Territory on 18 May 2008, in Queensland on 25 November 2008 and in Victoria on 11 December 2008. Similar amendments are expected to be made in the remaining jurisdictions in due course.

Regulations

The Councils responded to associations' concerns about the timing of quarterly annual fee payments by requesting an amendment to the Regulations to allow fees to be paid at the end of a calendar quarter, rather than quarterly, based on the anniversary of the commencement of a Scheme.

Regulations incorporating the Councils' proposals commenced in South Australia on 1 October 2006, in New South Wales on 8 December 2006, in Western Australia on 29 December 2006, in Victoria on 7 November 2007, in Queensland on 9 February 2007, in the Northern Territory on 1 January 2008, and in the Australian Capital Territory on 1 July 2008.

The NSW Regulation is currently under statutory review.

COMMONWEALTH CO-OPERATION

A vacancy on the Professional Standards Councils was created for the Commonwealth representative with the retirement of the inaugural Commonwealth representative, Mr Warwick Wilkinson. Mr Wilkinson was previously the Chairman of the Professional Standards Council of New South Wales. A new Commonwealth representative is being appointed to all Councils.

Ongoing co-operation has paved the way for a number of Schemes to be prescribed under the *Trade Practices Act 1974* (Cth) for an additional 2 years to 16 June 2011, including:

- ICAA Schemes in the Australian Capital Territory, the Northern Territory, Queensland, South Australia and Victoria,
- CPA Australia Schemes in the Australian Capital Territory, the Northern Territory, Queensland, South Australia, Victoria and Western Australia,
- PSOA New South Wales Scheme,
- The VIC Bar Scheme, and
- Engineers Australia Schemes for the Australian Capital Territory, New South Wales, Northern Territory, Queensland and Western Australia.

SCHEMES IN FOCUS 2008-2009

ANNUAL RISK MANAGEMENT REPORTS

Occupational associations with *Cover of Excellence*[®] Schemes are required to report annually to their State/Territory-based Council on the implementation of the five-year risk management plan that formed part of their original application for a Scheme, detailing the effect of their strategies in mitigating risks, improving standards and enhancing consumer protection. The reporting period for *Cover of Excellence*[®] Schemes is 1 January to 31 December, with the report required to be submitted to Council by 31 March the following year. Each State/Territory-based Council reports on the performance of the participating associations in relation to such risks each year in the Councils' Annual Report.

Reporting ensures that an occupational association makes constant and timely improvements to its practices, to the benefit of consumers of its services. The obligation to report is a statutory requirement and is fundamental to the monitoring role of the Professional Standards Councils in all jurisdictions. Examining the strategies and risks of professional associations allows the Councils to further consider whether a limitation on occupational liability requires adjustment, as a consequence of changes in risks faced or undertaken by members of an association. It also provides the Councils with the opportunity to assess the long-term impact of professional standards legislation from the perspective of their stakeholder associations.

The Professional Standards Councils are developing guidelines for annual risk management reporting by participating associations, which will facilitate reporting by associations that have Schemes in multiple jurisdictions. The guidelines will reflect the AS/NZS 4360:2004 Risk Management Standard, and will build stronger links with the initial five-year risk management plan that each association submits to the Councils as part of their application for a *Cover of Excellence*[®] Scheme. This will assist the Councils and the participating associations to measure performance in an objective and meaningful manner, as well as adhering to best practice risk management.

Who reports where?

The 2008–09 financial year represents the first year in which there have been reporting obligations in all mainland jurisdictions. Table 13 identifies the reporting obligations on a State/Territory basis for the 2008 reporting year.

Who reports on what?

Professional standards legislation mandates that an association report annually on the implementation and monitoring of its risk management strategies, the effect of those strategies, and any changes made (or proposed to be made) to them. Regardless of the strategies adopted and reported on, the Councils require that all associations must report each year on their claims and insurance monitoring, complaints and discipline, and continuing occupational education, together with compliance with disclosure of limited liability and use of the Councils' trade mark. Table 14 summarises compliance with the compulsory risk management reporting categories for the 2008 reporting year by all occupational associations.

Table 14 Association Reporting Categories 2008

Association	Compulsory Reporting Categories			
	Claims and Insurance Monitoring	Complaints and Discipline	Continuing Occupational Education	Compliance with Disclosure and use of trade mark

NIA	✓	✓	✓	✓
NSW Bar	✓	✓	✓	✓
LSNSW	✓	✓	✓	Not submitted
PSOA	✓	✓	✓	Not submitted
VIC Bar	✓	✓	✓	✓

There are non-compulsory categories of reporting, which are occupation specific; these are not included in this section.

Finally, for the 2008 reporting year occupational associations were asked to focus on the relationships between claims, complaints and continuing education, and how these relationships are captured in the risk management process.

RISK MANAGEMENT REPORTS FROM THE AUSTRALIAN CAPITAL TERRITORY

CPA Australia Risk Management Report

This is the first time that CPA has been required to submit a Risk Management Report in the Australian Capital Territory.

Table 15 CPA Australia (Australian Capital Territory) Claims and Insurance Monitoring

Year	Action/Outcome
2008	<p>Outcome: CPA Australia reported 1 insurance claim notification for the Australian Capital Territory Scheme in the reporting period.</p> <p>During the reporting period the market remained stable but increasingly competitive.</p> <p>There are in excess of 27 underwriters willing to provide Professional Indemnity Insurance for CPA Australia accountants.</p>

Table 16 CPA Australia (Australian Capital Territory) Complaints and Discipline

Year	Tactic/Strategy	Action/Outcome
2008	Continual improvements in investigation and disciplinary processes.	<p>Action: An external independent reviewer examined all aspects of the disciplinary process and made recommendations.</p> <p>Outcome: In 2008, there were 163 externally initiated complaints investigated across Australia along with previous complaints carried over from 2007.</p> <p>Outcome: 42 members appeared before a disciplinary tribunal, with the outcomes reported on the website. There were 0 in ACT.</p>

Table 17 CPA Australia (Australian Capital Territory) Continuing Occupational Education

Year	Tactic/Strategy	Action/Outcome
2008	Continuation of CPA Program.	<p>Action: The Education Advisory Committee meets 4 times a year to provide strategic oversight and quality assurance for the CPA Program.</p> <p>Outcome: Eight-unit conversion courses are now able to be accredited. The first course was accredited in late 2008.</p>
	Development of new educational pathway for membership development.	<p>Action: In 2010, CPA Australia will also launch a series of 8 Foundation Exams designed to assess core knowledge as an alternative pathway to commencing the CPA program.</p>

Table 18 CPA Australia (Australian Capital Territory) Compliance with Disclosure and *Cover of Excellence*® Logo Requirements

Year	Action/Outcome
2008	<p>Action: CPA Australia provided a quality review framework for implementing and assessing compliance with disclosure of limited liability and <i>Cover of Excellence</i>® logo requirements.</p> <p>Action: There is a 5-year (i.e. 20% annually) review cycle as part of the quality assurance program.</p> <p>Action: Audit includes review of letterhead, company structures, quality control and risk management.</p>

ICAA Risk Management Report

This is the first time that ICAA has been required to submit a Risk Management Report in the Australian Capital Territory.

Table 19 ICAA (Australian Capital Territory) Claims and Insurance Monitoring

Year	Action/Outcome
2008	<p>The Institute does not recommend, mandate or limit broker choice for members seeking PII cover.</p> <p>Action: Members were asked to identify the broker who had arranged their PII. 67.21% of brokers nominated by members have undertaken to comply with the Institute's PII Regulations.</p> <p>Action: The Institute sought information regarding any formal claim in excess of \$500,000 lodged against members or firms in the 2007 or 2008 calendar year.</p> <p>Outcome: For the Australian Capital Territory there were 0 reported claims.</p> <p>Feedback from brokers and insurers indicates that, after several years of soft market for insurance, Australia is likely to see a hardening of the PII market. One of the key factors is expected to be an increase in claims arising from losses incurred as part of the impact of the Global Financial Crisis.</p>

Table 20 ICAA (Australian Capital Territory) Complaints and Discipline

Year	Tactic/Strategy	Action/Outcome
2008	Ongoing compliance with Statement of Membership Obligations (SMO 6): Investigation and Discipline.	<p>Outcome: During the 2007-08 financial year the Professional Conduct team initiated investigations into 259 formal complaints nationally. This was a decrease from 317 the previous year.</p> <p>Action: Professional Conduct Tribunal outcomes published on Institute website or in Charter publication.</p>

Table 21 ICAA (Australian Capital Territory) Continuing Occupational Education

Year	Tactic/Strategy	Action/Outcome
2008	Ongoing development and revision of training products and services to ensure value to members.	<p>Action: Training and development primarily focused on delivering training across Tax, Accounting, Audit and Superannuation topics. Issues and topics are selected on the basis of member requirements identified by Institute and member technical specialists as well as feedback from external regulators.</p> <p>Action: Audit training was delivered to 445 attendees Australia-wide to support the Audit manual and toolkit which was launched in July 2008.</p> <p>Outcome: Continued rapid expansion of the Institute's in-house training service. Nationally a total of 221 clients and 3,493 hours of in-house training delivered in 2008.</p> <p>Outcome: Live On-Line training available to all members. 1,300 members Australia-wide participated in Live On-Line training to 31 December 2008.</p> <p>Action: Quality review processes identified 14% of practices Australia-wide had not completed the minimum training requirements. Appropriate follow-up was arranged.</p>

Table 22 ICAA (Australian Capital Territory) Compliance with Disclosure and *Cover of Excellence*® Logo Requirements

Year	Action/Outcome
2008	<p>Action: All members practices were requested to confirm that they are complying with the disclosure of their limitation of liability in accordance with the requirements of the professional standards legislation and regulation.</p> <p>Outcome: In the Australian Capital Territory, 85.45% respondents to a members' survey confirmed compliance with disclosure requirements.</p> <p>Outcome: 7.27% of respondents confirmed that they were using the optional <i>Cover of Excellence</i>® logo.</p> <p>Action: ICAA will target communications to raise awareness of the disclosure requirements in those States/Territories which have new Schemes.</p>

RISK MANAGEMENT REPORTS FROM NEW SOUTH WALES

New South Wales has the highest number of Schemes operating.

Information from the Councils' previous Annual Reports has been used to develop the longitudinal/historical information presented below. Currently this is unique to NSW, as it is the only State that has had *Cover of Excellence*[®] Schemes operating and reporting for more than one year.

AVI Risk Management Report

The current AVI Scheme commenced on 26 July 2007 and expires on 25 July 2012. The current Scheme differs sufficiently to the previous Scheme to make data comparison of little value. The AVI *Cover of Excellence*[®] Scheme operates in NSW only.

Table 23 AVI Claims and Insurance Monitoring 2008

Year	Action/Outcome
2008	<p>Outcome: No claims reported.</p> <p>Outcome: The Board (of AVI) is proud of its excellent claims history and believes that it is an industry benchmark. The average cost of insurance is 5% of gross fees. Because of the affordability of insurance it can be inferred to be reasonably available.</p> <p>Outcome: Approximately 50% of AVI members used the one insurer.</p>

Table 43 ICAA (New South Wales) Claims and Insurance Monitoring 2006-2008

Year	Action/Outcome
2008	<p>The Institute does not recommend, mandate or limit broker choice for members seeking PII cover.</p> <p>Action: Members were asked to identify the broker who had arranged their PII. 67.21% of brokers nominated by members have undertaken to comply with the Institute's PII Regulations.</p> <p>Action: The Institute sought information regarding any formal claim in excess of \$500,000 lodged against members or firms in the 2007 or 2008 calendar year.</p> <p>Outcome: There were 6 reported claims in NSW.</p> <p>Feedback from brokers and insurers indicates that after several years of soft market for insurance, Australia is likely to see a hardening of the PII market. One of the key factors is the rise in claims arising from losses incurred as part of the Global Financial Crisis, which is seen as inevitable.</p>
2007	<p>Outcome: There was 1 insurance claim for the 2007-reporting year, identified as part of the ICAA audit program.</p>
2006	<p>Outcome: ICAA has reported no specific claims data for the 2006 reporting year but has provided information regarding historical claims as part of its application for the renewal of its Scheme. However, as part of a random audit of members, only 1 claim in excess of a \$350,000 benchmark was identified.</p>

Year	Action/Outcome
2008	<p>Action: All members practices were requested to confirm that they are complying with the disclosure of their limitation of liability in accordance with the requirements of the professional standards legislation and regulation.</p> <p>Outcome: In NSW, 93.77% of respondents to a members' survey confirmed compliance with disclosure requirements. Members' compliance with disclosure requirements in NSW reflects the greater awareness of members in that State, many of whom have been participating members of a Scheme since 1997.</p> <p>Action: ICAA will target communications to raise awareness of the disclosure requirements in all mainland States/Territories.</p> <p>Outcome: In NSW 27.67% of respondents confirmed that they were using the optional <i>Cover of Excellence</i>® logo.</p>
2007	<p>Action: ICAA surveyed 50 practices as part of its compliance-monitoring program, which represents approximately 12% of its members covered by the Scheme in New South Wales. The survey found there were high levels of compliance.</p> <p>Outcome: 94% of firms selected in the random audit completed the self-assessment forms within the reporting period. This represents a decrease of 4% in comparison to the previous reporting period.</p> <p>Outcome: 100% of respondent's documents carried a statement that liability is limited under the <i>Professional Standards Act 1994</i> (NSW) and included a copy of the Professional Standards Council's Disclosure Policy. ICAA members who were identified as not having used the prescribed form have been followed up by the ICAA, and matters satisfactorily resolved.</p>
2006	<p>Action: ICAA undertook a random sample of members for its compliance program.</p> <p>Outcome: 98% of firms surveyed returned the survey and indicated compliance with the requirements. ICAA also randomly audits firms to verify the surveys and found 100% compliance.</p>

Notes:

1. This unaudited statement is derived from information provided by the New South Wales Attorney General's Department (AGD) and records kept by the Secretariat. The AGD provides financial services to the Councils and the Councils' financial information forms part of the Financial Statement published in the AGD Annual Report, which is subject to audit by the NSW Auditor-General. Figures are exclusive of Goods and Services Tax.
2. Revenue figures are prepared on an accruals basis of accounting.
3. Consultancy fees were for the provision of independent actuarial advice for the schemes.
4. Allowances paid to Council Members at rates determined by the Attorney General in accordance with Clause 4, Schedule 2, *Professional Standards Act 1994* (NSW). These allowances are the same for all members, with the exception of the Chair. The figures under each Council are derived from the application of a formula specified in the Professional Standards Interdepartmental Service Agreement 2008 which allocates expenses to each Council based on their proportion of the total revenue.
5. Final Total expenditure information derived from New South Wales Attorney General's Department (AGD) incorporating variances from estimated expenditure figures used to derive service charges.

Under the Professional Standards Interdepartmental Service Agreement 2008 signed by all the States and Territories with the New South Wales AGD each Council bears a proportion of the total expenditure based on their share of the total revenues for all the Councils. Each Council is invoiced by the New South Wales AGD for their portion of the expenditure.

Invoiced services provided by NSW Secretariat, in accordance with Service Agreement, were based on estimated expenditure at 30 June 2009. These amounts do not include Goods and Services Tax. The amount of service charges to the various PSCs totalling \$391,888 is shown below:

	Cons	NSW	QLD	VIC	SA	WA	ACT	NT	TAS
Service charge paid to NSW AGD	391,888	n/a	97,360	177,796	37,509	63,510	12,730	2,984	0

There is a variation between the service charge invoiced to each Council on 30 June 2009 and final service charge to be applied for 2008-2009. The total variation is \$11,152. Therefore the total amount invoiced should have been \$403,040.

The variations for each Council will be settled during the year ended 30 June 2010, and are as shown below:

	Cons	NSW	QLD	VIC	SA	WA	ACT	NT	TAS
Variation to be payable to NSW AGD Q1 2009-10	11,152	n/a	2,745	5,085	1,018	1,872	346	86	0

Therefore the service charge for each Council after these adjustments are:

Major legislative changes

There were no major legislative changes to professional standards legislation in the Northern Territory in 2008-09.

Financial performance

The Professional Standards Council of the Northern Territory is not responsible for compiling financial statements, but the OPSC is responsible for ensuring the collection of revenue and operating within budget. During the reporting period, the OPSC undertook these tasks.

Refer to the Consolidated Financials Performance Extract of the Professional Standards Councils at the beginning of this section, for revenue of the Professional Standards Council of the Northern Territory and the proportion of expenses for this Council.

THE PROFESSIONAL STANDARDS COUNCIL OF QUEENSLAND

Constitution of the Council

The members of the Professional Standards Council of Queensland were: Esther Alter, Robert Beaton, Steven Cole, Terry Evans, Ronald Farrell, Justin Harper (resigned May 2009), Joanne Metcalfe, Madeleine Ogilvie, Brian Rayment, Iain Summers and Warwick Wilkinson (retired December 2008). Ms Lisa Hunt was appointed as the Commonwealth representative after the last meeting for the financial year and was thus not entitled to attend any meetings.

In February 2009, there were insufficient appointed members to create a legislated quorum of the Professional Standards Council of Queensland. For this reason, in 2008-09 there were only five meetings of the Professional Standards Council of Queensland.

Note: Ms Ogilvie was entitled to attend all five meetings, however was on approved leave from the Professional Standards Council of Queensland on four occasions at which times her delegate attended on her behalf.

Major legislative changes

The *Justice and Other Legislation Amendment Act 2008* (Qld) contained amendments to the *Professional Standards Act 2004* (Qld) (the Act) which commenced on 25 November 2008. These amendments:

- implemented changes as approved by the Standing Committee of Attorneys-General to allow for the mutual recognition in States and Territories of a scheme to operate nationally;
- made a technical drafting change to ensure that the provisions for giving notice of approval of a scheme are consistent with other Queensland legislation providing for the notification of subordinate legislation; and
- extended the deadline for review of the Act in section 72 given the few schemes that have been approved in Queensland to date and forthcoming reviews in a number of other jurisdictions, including the proposed Commonwealth review of professional standards legislation expected to commence in 2010.

Freedom of Information reporting

The *Freedom of Information Act 1992* (Qld) requires:

- that information concerning documents held by government are to be made available to members of the community;
- that members of the community are able to obtain access to documents held by government; and
- that members of the community are able to ensure that documents held by the government concerning their personal affairs are accurate, complete, up-to-date and not misleading.

'Government' includes a department, local council or public authority (such as a body established by an enactment or by government under an enactment for a public purpose).

The Professional Standards Council of Queensland received no requests under the *Freedom of Information Act 1992* (Qld) in the reporting period.

Whistleblowers Protection

The *Whistleblowers Protection Act 1994* (Qld) aims to protect public interest by protecting persons who disclose:

- unlawful, negligent or improper conduct affecting the public sector;
- danger to public health or safety; or
- danger to the environment.

The Professional Standards Council of Queensland received no disclosure covered by the *Whistleblowers Protection Act 1994* (Qld).

Public Records Act 2002 (Qld)

Sound record keeping practices underpin good governance. The Council has a system in place which ensures the accurate storage, capture and retrieval of documents as required by the *Public Records Act 2002* (Qld) and Information Standard 40: Record keeping.

Privacy Principles

The Queensland Government's Information Standard No. 42 and supporting guidelines establish a framework for the responsible collection and handling of personal information in the Queensland public sector. Information Standards are issued under the authority of section 22(2) and section 56(1) of the *Financial Management Standard 1997* (Qld) and apply to all government agencies and statutory bodies as defined under the *Financial Administration and Audit Act 1997* (Qld). Information Standard No. 42 requires personal information to be managed in accordance with a set of information privacy principles adapted from the Commonwealth government public sector information privacy principles contained in the *Privacy Act 1988* (Cth). The requirement for agencies to comply with the Information Standard and guidelines is administratively based.

Financial performance

The audited financial statements of the Professional Standards Council of Queensland are attached as an addendum to this report. For an unaudited statement of the revenue and expenditure of this council refer to the Consolidated Financial Performance Extract of the Professional Standards Councils at the beginning of this section.

What is the *Cover of Excellence*®?

The *Cover of Excellence*® is a trademark of the Professional Standards Councils. Occupational associations and professional associations with a *Cover of Excellence*® Scheme encourage professionals to adopt practical risk management strategies to achieve quality of service and to create a culture of excellence and responsibility. That culture supports qualified, proficient practitioners to serve the best interests of clients and provide a proper cover of protection. The *Cover of Excellence*® logo is easily recognisable, and may be used by members of occupational associations and professional associations who enjoy the benefit of a *Cover of Excellence*® Scheme. Participants adopting the logo convey to consumers that they are committed to protecting and caring for consumers, improving standards, and reducing risk.
